

The Denver Well Logging Society

Chapter of the Society of Petrophysicists & Well Log Analysts

CALL FOR PAPERS DWLS SPRING WORKSHOP

Topic: Horizontal Petrophysics: Applications and Interpretation Techniques in Reservoir Characterization

We welcome abstracts in the following categories:

- Deviated/horizontal well petrophysics
- Applications to geosteering
- Vertical log concepts as applied to horizontal targets
- Applications to reservoir characterization in unconventional reservoirs
- Applications to optimizing completions, production, and estimating OOIP
- LWD interpretation techniques

We welcome abstracts for technical talks with 250- 500 words. Send in your abstract today!

Workshop will be held online, April 2021

Deadline for abstract submission is January 15th, 2021

**Submit abstracts to Jenny LaGesse:
VP_Technology@dwls.spwla.org**

Authors of accepted abstracts will have option to submit slides for digital course publication

WORKSHOP WILL BE HELD VIA WEBINAR
